

### **TERRESTRIAL GEOPHYSICS TECHNICIAN – ROLE SPECIFICATION**

- As Technician grade Terrestrial Geophysicist, your role will involve assisting in the undertaking all types of geophysical fieldwork (gradiometer, resistivity, EM, GPR, ERT).
- You will use learned and practiced techniques to assist in the collection of geophysical data, on a range of projects. In doing this you will follow Wessex Archaeology's standard terrestrial geophysics methods and processes and other appropriate instructions, under the direction of supervising staff, seeking their guidance and assistance where necessary.
- You will work under the direction of, and be responsible to, a supervisor, seeking their guidance and assistance where necessary.
- As a Technician, your role will not be limited to work on archaeological survey, there will also be tasks undertaken at a corporate and company level which may include production of marketing material, business material, and internal company information.
- Wessex Archaeology is committed to creating a very high-quality product. This is achieved by the efficiency, reliability and excellence of the work you undertake as a member of the team. It is the responsibility of those more senior to help you understand the importance and value of the work you do. It is your responsibility to improve, increase, and share your skills and knowledge, seeking guidance and support whenever necessary.
- You will need communicate effectively with the site supervisor and other senior staff, while communication with your peers will be essential for the continued development of your skills, and the company's work processes. You must be respectful and mindful of your audiences and act appropriately.
- Your work will form a key part of Wessex Archaeology's deliverables and working practices, these should be undertaken with utmost care. With training you should be able to undertake routine tasks independently, with little need for QC. More complex process and deliverables will require more extensive QC and edits.

### **BEHAVIOURAL ATTRIBUTES**

A Technician grade Terrestrial Geophysicist is expected to:

- Be open to learning and receiving direction;
- Communicate appropriately and respectfully;
- Be responsible and accountable for your work, actions and decisions.
